

Notes:
(a) The 1990 percentage of minority residents includes all residents except white non-Hispanics. Since the race-by-Hispanic/Latino category was not available from the 2000 Census for California census tracts in July 2001, the minority percentage for 2000 includes non-white races, without regard for ethnicity. Ethnicity (Hispanic/Latino) is presented as a separate percentage.
(b) Below-poverty level statistics were not available in July 2001 from the 2000 Census; therefore 1990 below-poverty level data were used.
Permitted air emission sources within 6 miles of the project site include two cotton-ginning facilities, a government office, a portable equipment facility, and a concrete batching facility (labeled No. 1 through No. 5 on Figure 8.8-1). None of the 5 air emission sources is a Title 5 permitted facility. VISTA reported the sites listed in the table below and labeled on the map. VISTA database lists include hazardous waste sites permitted by U.S. EPA (Toxic Release Inventory Sites) and the California Department of Toxic Substances Control.

Map Label	Number of Hazardous Site Locations	Number of Sites	Database Category:
